Purpose-designed professional laser for adventure, astronomy and burning. Excellent heat-dissipation by professional German laser diode, and 100% indestructible aerospace aluminum alloy housing. Thanks its heat-dissipation, it achieves unlimited duty cycle until running out of power. This blue laser pointer (<https://www.htpow.com/ultra-powerful-laser-pointer-blue-10000mw-class-iv-445nm-p-1028.html>) can be accessed easily by pressing its tail switch.

3 Modes Operation Powerful Laser Flashlight

How to Use

1. Put 2x 26650 batteries into your *powerful laser pointer* .
2. Wear laser goggles before turning it on.
3. Press the button (at the tail of your laser pointer) to light it on.
4. Rotate the top part to adjust focus.
5. Mount the laser heads (also called laser lens) on your high power laser pointer to transform it into a starry laser pointer.
6. Press button to turn it off.
